

Research Club Membership

ALS Therapy Development Institute

STANDING STRONG TOGETHER WILL MAKE POSSIBLE A CURE

Becoming a TDI Research Club Member makes you part of ALS TDI's research team of 30 scientists and technicians working exclusively on discovering the cause of and viable treatments for ALS (commonly known as Lou Gehrig's disease). As a member, you will be supporting the most experienced and multi-disciplinary scientific team ever assembled to stop ALS. Your membership will impact the lives of today's ALS patients.

WHAT DO MEMBERS RECEIVE? WHAT DOES MEMBERSHIP MEAN?

Members will receive an official membership card with ALS TDI contact information for patient and event information. All Members are recognized on our web site and in our annual report starting in 2008. Research Club Memberships run from Jan to Dec of the current year. Presales and renewals available in Oct of preceding year.

"The Research Club Membership program is a fantastic new concept that I'm excited to promote to my network of supporters. My sister lost her battle to ALS in February of 2007. She had a vision of a world free of ALS. This new program could definitely help make her vision a reality."

– Bernadette Cooper, Member

"I take pride in the fact that I'm a TDI Research Club Member because I know that I'm funding a program which provides a window into what's at the root cause of this disease. This is something that's never been looked at for sporadic ALS and I think it's high time the work is completed."

– Faye Magneson, Member and ALS Patient

Membership Types:

Individual - \$100

This membership is designed for individuals who have a loved one living with the disease today or who have lost a loved one already to ALS.

Sponsor a Patient - \$100

This sponsorship is a great way for you to ensure that all patients are part of ALS TDI. This membership level was created for friends of patients living with or lost to ALS.

The goal is 30,000 members, representing all patients living with ALS in the US today. That's \$3 million for research!

Friend of ALS Research - \$100

If you have not been directly effected by ALS, but would still like to see a world free of ALS become a reality - this is the membership type for you!

Corporate - \$500

Has your company lost a member of its family to ALS? Show that you support your employees by purchasing a corporate membership annually until a cure is found! Corporate logos will be displayed under the Corporate Membership section on the web site and annual report.
